

Oracle Technology Global Price List Supplement December 1, 2024

Included and Prerequisite Products Certain Oracle products may need other Oracle products to be installed as a prerequisite for their operation. The following is a guide to products which are shipped with the license and products which require a separate license purchase. It is the responsibility of the Sales Representative and Contract Administrator to specify products included with a license but requiring separate order. Version numbers are indicated only where there is a specific license dependency.

Not all platforms have product availability in the same release.

Restricted Use licenses may be used only to run and install the licensed Program with which they are included. Specific restrictions for such licenses are described in the licensed Program's Documentation.

The "Networking Kit" provides all relevant networking software and any available protocol adapters.

LICENSED PROGRAM	PRODUCT/COMPONENT INCLUDED WITH LICENSE AND SHIPPED	PRODUCTS TO BE LICENSED SEPARATELY (PREREQUISITES)
	WITH ORDER	, ,
